## **FAA Issues Finding for Taxiway “A” Project**

The Federal Aviation Administration has approved a Finding Of No Significant Impact (FONSI) on the Final Environmental Assessment dated August 2006 for the proposed Construction of Parallel Taxiway A Project at Louisville International Airport at Standiford Field (SDF), Louisville, Kentucky. United Parcel Service (UPS) will introduce the Airbus A380 aircraft into its SDF cargo fleet in the year 2009. The proposed project will accommodate the A380 aircraft without operational restrictions on Taxiway A and Runway 17R/35L.

The FONSI indicates the project is consistent with existing environmental policies and objectives as set forth in the National Environmental Policy Act of 1969 and will not significantly affect the quality of the environment.
