Evans Named Vice-President

Louisville, KY (November 7, 2006) The National Organization to Insure a Sound-controlled Environment (NOISE) recently elected Mary Rose Evans, airport board member, as its Vice-President.

An affiliate of the National League of Cities, NOISE members include communities and local governments throughout the United States that have joined together to advocate responsible national public policy initiatives and effective mitigation programs to address aviation noise issues.

“We are excited to have someone of Vice-President Evans’ stature in the leadership of the organization,” said NOISE President Skip Lowry, Councilmember from Saint John, Missouri. “Her knowledge, enthusiasm, and first-hand experience help to inform and educate our members and to move our public policy agenda in Washington, D.C.”

Evans, an airport board member since 2002, also is a Commissioner of Parkway Village, KY.

Since 1996, Evans has worked tirelessly to represent the concerns of airport neighbors—as Airport Neighbors Alliance (ANA) President and as a Relocation Working Group member. In addition, as a member of the Louisville Regional Airport Authority Board, she sits on the airport’s Community Noise Forum.

Mary Rose Evans
