Parking Enhancements

Valet parking is now available at Louisville International Airport. Passengers may conveniently drop off and pick up their vehicles on the upper-level (departure) roadway on the west end of the terminal. (Vehicles are parked in the covered parking garage until the traveler returns.)

The service is available daily, from early in the morning (4 a.m.), to late in the evening (1 a.m.) Air Valet, who provides the service, is offering an introductory rate of \$20 per day until May 1, 2008.

Reservations are not required, but are accepted via the internet at www.airvalet.com/Reservations

Travelers with questions are welcome to call Air Valet at (502) 380-1511 or (502) 380-3723.

A new self-serve, credit-card only parking lot is open east of the terminal and automated, credit-card-only exit lanes are now offered from the current parking facilities at the toll plaza. Rates for parking in the new lot are the same as the rates for the surface lot. However, please remember that shuttle service is **not** available from the credit-card only lot to the terminal.
