Ronald D. Logsdon Named Director of Parking Operations

Louisville, KY (June 2, 2008)— Skip Miller, Executive Director of the Louisville Regional Airport Authority, recently announced that Ronald D. Logsdon has been named as the Authority's Director of Parking Operations, effective Friday, May 23.

As Director, Logsdon is responsible for the planning, coordinating and supervising the Authority's parking operations, consisting of more than 6,000 public-and employee-spaces at Louisville International Airport. He manages the parking staff and oversees the 24/7 collection of the \$17 million in revenue associated with the Authority's parking functions.

Logsdon has been employed by the Authority since December 2000, most recently as Acting Director of Parking Operations.

Prior to coming to the Authority, Logsdon worked for the United States Postal Service where, in addition to other management positions, he served as Manager of Technical Sales and Service and then as Manager of Customer Service.

Miller noted, "After a national search, Logsdon's performance as Acting Director and his extensive experience in customer and technical services clearly made him the ideal person for this important position."
