## **Frontier Begins New Nonstop Service to Austin**

LOUISVILLE, KY (August 14, 2018) – On Monday, August 13, Frontier Airlines celebrated the beginning of new, nonstop service to Austin-Bergstrom International Airport (AUS) in Austin, TX from Louisville International Airport (SDF). With this service, additional connections are available to select cities across the Frontier network. Nonstop flights to Austin are offered twice weekly on Mondays and Fridays, using a 180-seat Airbus A320.

“It’s very exciting that Frontier is expanding service at Louisville International – just a few months after beginning flights to Denver,” said Dan Mann, Executive Director of the Louisville Regional Airport Authority. “This convenient and affordable nonstop route allows Austin residents to take advantage of all that our community has to offer.”

Frontier, which offers service to more than 80 destinations in the United States, Canada, Dominican Republic and Mexico, is focused on offering customers real choice and the ability to customize their travel to their needs and budget. This includes options like bags and seat selections a la carte or in one, low-priced bundle such as The Works. For more information on The Works, or to view Frontier’s low fares, visit [www.FlyFrontier.com](http://www.FlyFrontier.com).

For more than 12 consecutive months, Louisville International Airport has experienced a consistent increase in passenger traffic. Due to the increased demand and market growth, service is now available to 31 destinations from Louisville, including 19 of the top 20 destinations travelers visit most. With just one stop, travelers from across the region can reach 170 international destinations in 81 countries on six continents.
