Runway 24 Approach Update

As of December 4, nighttime instrument approaches for Runway 24 have been restored as a result of the tree-trimming and removal work approved by the LRAA Board in October under a \$248,905 contract with Bob Ray Company (which also includes ongoing restoration efforts). The work is being overseen by Hanson and includes approximately \$85,500 for the design, inspection and coordination.

Snow Removal

Bowman Field Maintenance staff worked around-the-clock during the recent inclement weather to ensure the runways and taxiways were clear and open.

Bowman Field Honored by KET

The Bowman Field Administration Building was recently named one of the *Top Ten Buildings That Changed Louisville* by Kentucky Educational Television (KET) and the American Institute of Architects Kentucky (AIAKY).

Built in 1929, the art deco Bowman Field Airport Terminal building served as the primary passenger terminal until 1947. After 1947, Bowman Field assumed its new role as Louisville's general-aviation airfield. Today it is one of the longest, continuously operating general-aviation airports in the country.
