## **Statement Regarding Coronavirus**

“Louisville Muhammad Ali International Airport (SDF) takes health concerns seriously and follows the guidance provided by public health officials at the federal, state, and local levels. Although the CDC has not implemented enhanced screening of passengers at SDF, we encourage passengers to increase personal hygiene and frequent hand washings. The airport is increasing the number of hand sanitizing stations in the terminal for the passengers’ convenience. Additionally, out of an abundance of caution, the airport is increasing our use of disinfectant and cleaning in high-touch areas such as handrails and restroom doors. For additional information on the CDC’s monitoring and actions related to the Coronavirus, we recommend checking the CDC’s website at <https://www.cdc.gov/coronavirus/2019-nCoV/>.”

- Darrell Watson, Vice President of Strategy and Innovation  
Louisville Regional Airport Authority
